What Lilly Does in a Fight

Attack	To Hit	Damage
True Strike (Boomstick)	+10	1d10 + 2 + 5 thunder + 1d6 radiant + 1d8 (30/90 ft)
Cannon: Flamethrower	DC 16 Dex	2d8+2 fire in a 15-ft cone
Cannon: Force Ballista	+8	2d8+2 force, push 5 ft (120 ft away)
Fire Bolt (cantrip)	+8	2d10 fire + 1d8 thunder (120 ft, her long shot)
Scorching Ray (2nd)	+8	three rays, 2d6 fire each, +1d8 on one

How Lilly's turn works: She fires her cannon as a **BONUS action** AND does something else with her main action (cast a spell, fire Boomstick with True Strike, or Fire Bolt). She gets to do **both every turn!**

Lilly's Eldritch Cannon

The Cannon can be attacked and broken. Mending repairs it 2d6.

AC	HIT POINTS	SIZE	SPEED
18	35	Small/Tiny	15 ft (legs)
Pick the blast when she fires	New rule: the cannon is no longer locked to one mode! Each time she fires it, choose: Flamethrower (15-ft cone, 2d8+2 fire), Force Ballista (one faraway enemy, 2d8+2 force, push 5 ft), or Protector (shield-points to Lilly & friends within 10 ft, 1d8+5).		
How to use it	Fire it with a bonus action , so Lilly still gets her main action the same turn! Free to deploy or recall (Pocket Dynamo), +2 damage, lasts a full 24 hours. Ignores conditions/poison/psychic; enemies must smash it to 0 HP.

Lilly's Special Powers

★ Aether Channeler (the year chasing the Sphere)	The year taught her what her mother's Sphere really is, and how to draw on it. Every Sphere power costs her action , and they all share the same pool: 2 uses, back on a short rest . She gains one more power for every rift's Mote she brings home and sockets into the Sphere. • Aether Ward . She and every friend within 30 ft gain 2d8 + 5 temporary hit points .
Replicate Magic Item	Lilly builds magic gear from arcane plans . She knows 5 plans and can keep 3 creations going at once. All three slots are full : her +1 Half Plate , the +1 Repeating Longbow she made for Stabby, and Puff's Wand of Magic Missiles . To build something new she has to let one of those go.
Magic Item Tinker (new at 6!)	Charge (bonus action, spend a slot to refill a creation's charges), Drain (bonus action, destroy one for a spell slot, 1/long rest), Transmute (reshape one into another plan, 1/long rest).
Flash of Genius (new at 7!)	Reaction . When she or any friend within 30 ft fails an ability check or saving throw, add +5 (Int) to the roll and maybe turn it into a success. 5 uses per long rest .
Tinker's Magic	Knows the Mending cantrip (fix broken things). Can also conjure handy mundane gear (rope, a torch, ball bearings) that lasts until her next rest. Great for puzzles and traps.
The Right Tool	With her tools, Lilly can magically make any set of artisan tools she needs (1 hour).
Deep Gnome Gifts	Gnomish Magic Resistance : advantage on Int, Wis & Cha saves vs spells. Svirfneblin Camouflage : advantage on Stealth checks. Gift of the Svirfneblin : casts <i>Disguise Self</i> and <i>Nondetection</i> free, 1/long rest each. Sees in the dark 120 ft. Speaks Common, Gnomish & Undercommon.

Lilly's Stuff

Essence Sphere	A steampunk orb holding Pikachu's spark. Lilly's big quest item: she wants to give Pikachu a body again.
Boomstick (new! built with her mother)	The repeating pistol she and Poots built together at the kitchen-table forge, +2. Range 30/90 . It is her weapon, her spell focus, and her Arcane Firearm all at once: any artificer spell she casts through it adds 1d8 thunder to one of its damage rolls.
Frostbite Shard Dagger +1 (retired to her belt)	Her old frost dagger, kept as a keepsake. Boomstick has taken over as focus and Arcane Firearm, so the dagger's riders no longer apply.
Pocket Dynamo (★ Elaria's gift)	From the Wraithpine chest. Summon/recall her cannon for free, lasts 24 hours, +2 damage. Reformat (1/long rest, action), now mostly spare, since every cannon picks its blast when it fires. Needs attunement.
+1 Half Plate (Replicate creation 1 of 3)	Her armour, the base of her AC 20 . She keeps it going with Replicate Magic Item, so it uses one of her three creation slots.
Shield	A sturdy steel shield. Adds +2 to her armor.
Wand of Web (new! she made it during the year)	Hers, attuned . 7 charges; spend 1 charge to cast Web : a 20-ft cube of sticky webbing, difficult terrain, and anything caught makes a Dex save DC 13 or is Restrained (it can break out with a Str check against the same DC). <i>The wand casts at its own DC 13, not her DC 16</i> . Regains 1d6+1 charges at dawn.
Wand of Magic Missiles (new! Puff carries it)	No attunement, so Puff can use it . 7 charges. Spend 1 charge for three darts that never miss, 1d4+1 force each, range 120 ft , split among any targets she can see. She may spend up to 3 charges at once : each extra charge adds one more dart , so 3 charges means five darts . Regains 1d6+1 at dawn. <i>(Replicate creation 3 of 3.)</i>
Ring of Spell Storing (new! attuned to Puff)	Holds up to 5 levels of spells . Any caster can put a spell of level 1 to 5 into it by touching it while casting, and the slot level used is how much room it takes. Puff can then cast anything stored in it, using the original caster's slot level, save DC and attack bonus, so a spell Lilly stores comes back out at DC 16 and +8 . Casting it frees that space again.
Pipes of Haunting (new! Puff carries them)	No attunement . 3 charges, regains 1d3 at dawn. Magic action , spend 1 charge to play an eerie tune: each creature she chooses within 30 ft makes a Wis save DC 15 or is Frightened for 1 minute , re-saving at the end of each of its turns. Anything that saves is immune to the pipes for 24 hours.
Attunement: 2 of 3 used	Lilly is attuned to the Pocket Dynamo and the Wand of Web , so she has one slot free . Puff attunes separately and holds the Ring of Spell Storing . Boomstick, the Wand of Magic Missiles and the Pipes need no attunement at all.

Page 3: Spellbook

Slots per day: 4 first-level, 3 second-level. Cantrips (★) are free forever. She prepares 7 spells; the four marked Always Prepared are free from her Artillerist subclass and don't count toward that. The +1d8 thunder is Boomstick, her arcane firearm: it adds to one damage roll of one artificer spell she casts each turn (she only casts one anyway). Her old frost dagger is retired, so its cold riders no longer apply.

★ True Strike

Cantrip • Action • fires Boomstick, 30/90 ft • Instant

Fire Boomstick using **INT for both the attack and the damage**. Ranged attack +10 to hit. On a hit: **1d10 + 2 + 5 thunder, +1d6 radiant** (the cantrip grows with her level), and **+1d8 thunder** from Boomstick as her arcane firearm. She can make the whole hit radiant instead when that hurts the target more. Her hardest single shot.

★ Mending

Cantrip • 1 minute • Touch • Instant

Repair a single break or tear in an object: a snapped chain, a torn cloak, a cracked gear. No bigger than 1 ft. Free from Tinker's Magic. Also heals her cannon 2d6!

Thunderwave: Always Prepared

1st • Action • Self (15-ft cube) • Instant

Foes in a 15-ft cube make a Con save DC 16: on a fail, **2d8 + 1d8 thunder** (Boomstick) and shoved 10 ft away; half and no shove on a success.

Scorching Ray: Always Prepared

2nd • Action • 120 ft • Instant

Fire three rays. Each is a separate ranged spell attack +8 to hit: 2d6 fire each, plus **1d8 thunder on one ray** (Boomstick). Aim them all at one foe or split them up.

Grease

1st • Action • 60 ft (10-ft square) • 1 min

Slick the floor in a 10-ft square: it becomes difficult terrain, and anyone standing there (or entering, or ending a turn there) makes a Dex save DC 16 or falls prone. No concentration, so she can keep something else running.

Homunculus Servant

2nd • 1 hr 10 min as a RITUAL (no spell slot!) • 10 ft • Permanent

She builds her little brass companion. Ritual casting costs her NO spell slot and it never expires. It flies, obeys her without costing her anything, and acts right after her every round. Full stat block below.

Web

2nd • Action • 60 ft • Concentration, 1 hr

Fill a 20-ft cube with thick sticky webs: **difficult terrain**, and anything caught in it makes a **Dex save DC 16** or is **Restrained**, breaking out later with a Str check against the same DC. The webs burn easily. (From her own slot it is DC 16; from the Wand of Web it is DC 13.)

★ Fire Bolt

Cantrip • Action • 120 ft • Instant

Hurl fire at one target. Ranged spell attack +8 to hit: **2d10 fire + 1d8 thunder** (Boomstick). Her reliable ranged poke, never runs out, and at 120 ft it outreaches Boomstick.

Shield: Always Prepared

1st • Reaction (when hit / by Magic Missile) • Self • 1 round

Snap up a force wall: +5 AC until the start of her next turn (can turn a hit into a miss) and take no damage from Magic Missile. Cast after seeing the attack roll.

Faerie Fire

1st • Action • 60 ft • Concentration, 1 min

Foes in a 20-ft cube make a Dex save DC 16; on a fail they're outlined in light. Attacks vs them have advantage and they can't be invisible. Strong team setup.

Shatter: Always Prepared

2nd • Action • 60 ft (10-ft sphere) • Instant

A loud burst. Creatures in a 10-ft sphere make a Con save DC 16: **3d8 + 1d8 thunder** (Boomstick) on a fail, half on success. Extra effective against metal and stone foes.

Cure Wounds

1st • Action • Touch • Instant

Touch a friend and heal them 2d8 + 5. Her emergency button when someone drops and Ursa or Ghostbloom cannot reach them in time.

Dragon's Breath

2nd • Bonus Action • Touch • Concentration, 1 min

Touch a willing friend (her homunculus!) and pick acid, cold, fire, lightning or poison. For 1 minute that creature can use its action to breathe a 15-ft cone: Dex save DC 16, 3d6 damage, half on a success. Pick the type the enemy is weak to!

Aid

2nd • Action • 30 ft • 8 hours

Choose three friends: each one's hit point maximum AND current hit points go up by 5 for eight hours. Cast it at breakfast, not in a fight. Free extra health for the whole day.

Puff, Lilly's Homunculus Servant

Tiny construct. Built, not summoned: ritual-cast in 1 hour 10 minutes for **no spell slot**, and it never expires. Fairy-sized, small enough to sit in her cupped hands.

AC 13 HP 15 Speed 20 ft, Fly 30 ft

Saves Str -1 **Dex +4 Con +3** Int +2 Wis +2 Cha +0 (Magic Bond's +2 already included)

Senses darkvision 60 ft **Telepathy** with Lilly, 1 mile

Immune poison damage; poisoned, exhaustion

Force Strike. +8 to hit, reach 5 ft or range 30 ft: **1d6 + 2 force**. Force punches through the Voltcrawlers' blink.

Evasion. On a Dex save for half damage it takes **none** on a success, half on a failure.

Magic Bond. Add +2 to any check or save it makes.

Channel Magic (Reaction). When Lilly casts a touch spell and it is within 120 ft, it can deliver that spell instead.

What she carries. The **Ring of Spell Storing** (attuned to her), the **Wand of Magic Missiles** and the **Pipes of Haunting**. Full rules for all three are on page 2 under Lilly's Stuff. Puff has a single action, so she can use only **one of them per turn**.

*It shares Lilly's initiative and acts right after her, obeying with **no action needed from her**; give it no orders and it Dodges. Touch it with Dragon's Breath and it breathes a 15-ft cone for 3d6, choosing the type the enemy is weak to.*

Page 4: Story & Personality

Lilly's Story

Lilly grew up in Deepforge Hollow, a svirfneblin (deep gnome) city deep in the Underdark, surrounded by the hum of machines and magic. Her mother, Poots Glimmergear, was a famous artificer and adventurer who inspired Lilly to tinker from the time she was tiny. Lilly trained at the Glimmerspire Academy of Artifice under Master Drogen Sparkwick, and her proudest creation was her very own arcane turret, the cannon she still fights with today.

On her seventh birthday, Poots handed Lilly the Essence Sphere, a device holding the spark of Pikachu, a lost companion from her mother’s adventuring days. Lilly’s quest became clear: find a way to give Pikachu a body again. That mission led her out of the Underdark to find Ursa, and along the way she met Stabby. The three became an unlikely team, chasing the mystery of the Essence Sphere, and the planar cracks tied to the sleeping goddess Elaria.

Two years of adventuring later, Lilly has zapped shadow beasts, survived the sinking of the **Stormwind**, walked the haunted lanes of **Wraithpine** (where Elaria's chest gave her the **Pocket Dynamo**), and helped free the clockwork city of **Gearhaven**, where she built **Puff** with her own hands. When Vane's great ring needed a year to finish, she went home first: she set the Sphere on her mother's kitchen table and said *tell me everything*. The answer was not in the stories, but the visit gave her something better: eleven evenings at the kitchen-table forge with Poots teaching, arguing, and finally just watching, and at the end of them **Boomstick**, which nobody gave her because the two of them built it. The answer she went for she earned on the trade roads, one workshop at a time, until the forty-first time she opened the housing she found **older marks under her mother's sigils**: the Sphere is not a machine holding a spark, it is a **seed that grows**. She came back to Gearhaven with her craft gone from clever to formidable, and with proof.

Personality

Inventive and curious <i>Always tinkering, always asking “why settle for what’s already made when you can build something better?”</i>	Ideal: Creativity <i>“There’s always a new way to make something better.” Lilly believes creativity solves any problem.</i>
Bond: Her Friends <i>Fiercely loyal to Ursa and Stabby. “Together, we’ll solve these mysteries and prove ourselves.”</i>	Flaw: Impatient <i>When a plan doesn’t work right away, she gets frustrated. “Why isn’t this working already?”</i>
