NAME

Firebolt

Evocation Cantrip V, S

RANGE

120 ft

ATTACK

+8 vs AC

DAMAGE / TYPE

2d10 fire + 1d8+2 cold

Green Flame Blade

5 ft

On hit

2d8 fire +2 cold and 1d8 + 5 fire to additional target

On a hit you can cause green fire to leap from the target to a different creature of your choice that you can see within 5 feet of it.

Frostbite Shard Dagger

5 ft

+7 vs AC

1d4+4 piercing + 1d4 cold

Spell Focus: Arcane Firearm: Frostbite Infusion

Arcane Firearm: You can use this dagger as an Arcane Firearm for your level 5 Artillerist feature, allowing you to add 1d8 to one damage roll of any spell you cast through it. That damage will always be dealt as frost damage.

Frostbite Infusion: When a creature takes damage from a spell you cast using this dagger as a focus, they take an additional +2 frost damage.

ATTACKS & SPELLCASTING

Darkvision. You can see in dim light within 60 feet of you as if it were bright light, and in darkness as if it were dim light.

Superior Darkvision. You can see in dim light within 120 feet of you as if it were bright light, and in darkness as if it were dim light.

Magical Tinkering. You must have thieves' tools or artisan's tools. You touch a Tiny nonmagical object as an action and give it one of the following magical properties of your choice:

The object sheds bright light in a 5-foot radius and dim light for an additional 5 feet.

Whenever tapped by a creature, the object emits a recorded message (no more than 6 seconds long) that can be heard up to 10 feet away.

The object continuously emits your choice of an odor or a nonverbal sound. The chosen phenomenon is perceivable up to 10 feet away.

A static visual effect appears on one of the object's surfaces. The chosen property lasts indefinitely. As an action, you can touch the object and end the property early.

You can bestow magic on up to 5 objects.

Infuse Item. Whenever you finish a long rest, you can touch a nonmagical object and imbue it with one of your artificer infusions, turning it into a magic item.

Your infusion remains in an item indefinitely, but when you die, the infusion vanishes after 5 days have passed.

You can infuse up to 2 nonmagical objects at the end of a long rest.

Enhanced Defense. You can infuse a suit of armor or a shield into a +1 armor or a +1 shield.

Returning Weapon. You can infuse a simple or martial weapon with the thrown property into a returning weapon.

Homunculus Servant. You can infuse a gem or crystal worth at least 100 gp into a homunculus servant.

In combat, the homunculus shares your initiative count, but it takes its turn immediately after yours. It can move and use its reaction on its own, but the only action it takes on its turn is the Dodge action, unless you take a bonus action on your turn to command it to take another action. That action can be one in its stat block or some other action. If you are incapacitated, the homunculus can take any action of its choice, not just Dodge.

The homunculus regains 2d6 hit points if the mending spell is cast on it. If you or the homunculus dies, it vanishes, leaving its heart in its space.

Enhanced Weapon. You can infuse a simple or martial weapon into a +1 weapon.

The Right Tool for the Job. With thieves' tools or artisan's tools in hand, you can magically create one set of artisan's tools in an unoccupied space within 5 feet of you. This creation requires 1 hour of uninterrupted work.

Eldritch Cannon (Action). You can magically create an eldritch cannon in an unoccupied space on a horizontal surface within 5 feet of you.

Once you create a cannon, you can't do so again until you finish a long rest or until you expend a spell slot to create one.

Flamethrower (Eldritch Cannon). The cannon exhales fire in an adjacent 15-foot cone that you designate. Each creature in that area must make a Dexterity saving throw, taking 2d8 fire damage on a failed save or half as much damage on a successful one. The fire ignites any flammable objects in the area that aren't being worn or carried.

Force Ballista (Eldritch Cannon). Make a ranged spell attack at one creature or object within 120 feet of it. On a hit, the target takes 2d8 force damage, and if the target is a creature, it is pushed up to 5 feet away from the cannon.

Protector (Eldritch Cannon). The cannon emits a burst of positive energy that grants itself and each creature of your choice with 10 feet of 1d8+5 temporary hit points.

Arcane Firearm. When you finish a long rest, you can use woodcarver's tools to carve special sigils into a wand, staff, or rod and thereby turn it into your arcane firearm.

When you cast an artificer spell through the firearm, roll a d8, and you gain a bonus to one of the spell's damage rolls equal to the number rolled.

FEATURES & TRAITS

Armor Proficiencies. Light Armor, Medium Armor, Shields

Weapon Proficiencies. Simple Weapons

Tool Proficiencies. Smith's tools, Vehicles land, Jeweler's tools, Woodcarver's tools, Thieves' tools, Tinker's tools

CHARACTER PORTRAIT

Ursa Catchum – A 7-year-old human druid of the stars, son of Ash Catchum, and one of Lilly's closest companions. Ursa shares her connection to magical creatures and carries the enchanted potatoes, making him essential to Lilly's quest.

Stabby Sharpblade – An 8-year-old goblin monk with a chaotic and adventurous spirit. Stabby is fiercely loyal to Lilly and Ursa, providing both comic relief and combat prowess in their journey.

Poots Glimmergear – Lilly's mother, a renowned artificer who gave Lilly the Essence Sphere and set her on her quest to restore Pikachu. Though not physically present, Poots remains a key influence in Lilly's life.

ALLIES & ORGANIZATIONS

NAME

Glimmerspire Academy of Artifice

SYMBOL

Inventive and Curious: Lilly is naturally inquisitive and loves to tinker. She's always coming up with new ideas, gadgets, and ways to solve problems. Her curiosity often leads her to explore unknown areas or experiment with new designs. "Why settle for what's already been made when you can create something better?"

PERSONALITY TRAITS

Creativity: Lilly believes that creativity is the key to solving any problem. She's always looking for new and inventive ways to improve things and believes that thinking outside the box is the best way forward. "There's always a new way to make something better."

IDEAL

Her Companions: Lilly has a strong bond with her adventuring companions, Ursa and Stabby. She relies on their friendship and support, and in return, she is fiercely loyal to them. "Together, we'll solve these mysteries and prove ourselves."

BOND

Lilly can be impatient, especially when things don't go according to her carefully thought-out plans. She's used to quickly solving problems with her inventions and may grow frustrated when faced with obstacles that take time to overcome. "Why isn't this working already?"

FLAW

Scavenger's Eye

Lilly can easily identify useful components in her surroundings, whether from broken-down machinery, discarded tools, or even magical items. When exploring, she can spot materials that others might overlook, which she can use in her tinkering projects.

BACKGROUND FEATURE

Essence Sphere containing the energy of Pikachu

TRINKET

Lilly Glimmergear's Story (The Inventive Artillerist)

Lilly Glimmergear was born in Deepforge Hollow, a bustling svirfneblin city deep in the Underdark, known for its intricate machinery and arcane inventions. Her mother, Poots Glimmergear, was a famous artificer and adventurer who inspired Lilly from a young age. Lilly grew up surrounded by the hum of machinery and magical devices, quickly developing a love for tinkering.

By age five, Lilly had built her first functional gadget, impressing both her mother and her community. Recognizing her potential, her mother enrolled her in Glimmerspire Academy of Artifice, a prestigious institution in Deepforge Hollow. There, Lilly mastered the art of blending magic with technology, excelling in mechanical engineering and arcane infusions.

On her seventh birthday, her mother entrusted her with the Essence Sphere, a unique device that holds the energy of Pikachu (Spark Fox), a lost companion from Poots' adventuring days. Lilly's quest became clear: restore Pikachu's corporeal form. Determined to fulfill this responsibility, Lilly left the Underdark to find Ursa Catchum, the son of her mother's former ally, Ash. She believed Ursa, with his connection to magical creatures, could help her unlock the secrets of the Essence Sphere.

On her journey, Lilly encountered Stabby Sharpblade, an adventurous goblin monk, and together with Ursa, they formed an unlikely adventuring party. With her inventive mind, loyal friends, and the Essence Sphere in hand, Lilly embarks on a journey to solve the mysteries of Pikachu's energy and uncover the larger planar disturbances tied to magical creatures.

BACKGROUND STORY

1. Tinkerer's Touch

Mechanical Ingenuity: Lilly can craft small mechanical devices or repair broken ones with minimal materials.
Quick Fix: She can quickly restore damaged gadgets or tools to working condition.

2. Arcane Inventor

Arcane Infusions: Lilly can temporarily enchant items, such as weapons or armor, with magical abilities.
Planar Energy Knowledge: Her research into planar energies helps her manipulate them for her inventions.

3. Resourceful Scavenger

Scavenger's Eye: Lilly can find useful materials in her environment to create or fix devices.
Field Repairs: She can make temporary repairs to broken equipment in the field.

4. Essence Sphere Mastery

Energy Containment: Lilly can capture and store motes of energy from magical creatures in the Essence Sphere.
Essence Manipulation: She is learning to unlock the power of the Essence Sphere to restore Pikachu's form.

Fire Bolt

Evocation Cantrip

CASTING TIME	1 action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You hurl a mote of fire at a creature or object within range. Make a ranged spell attack against the target. On a hit, the target takes 1d10 fire damage. A flammable object hit by this spell ignites if it isn't being worn or carried.

This spell's damage increases by 1d10 when you reach 5th level (2d10), 11th level (3d10), and 17th level (4d10).

Spellcasting (Artificer)

Player's Handbook

Green-Flame Blade

Evocation Cantrip

CASTING TIME	1 action
RANGE	Self (5-foot radius)
DURATION	Instantaneous
COMPONENTS	V, M (a melee weapon worth at least 1 sp)

You brandish the weapon used in the spell's casting and make a melee attack with it against one creature within 5 feet of you. On a hit, the target suffers the weapon attack's normal effects, and you can cause green fire to leap from the target to a different creature of your choice that you can see within 5 feet of it. The second creature takes fire damage equal to your spellcasting ability modifier.

This spell's damage increases when you reach certain levels. At 5th level, the melee attack deals an extra 1d8 fire damage to the target on a hit, and the fire damage to the second creature increases to 1d8 + your spellcasting ability modifier. Both damage rolls increase by 1d8 at 11th level (2d8 and 2d8) and 17th level (3d8 and 3d8).

Spellcasting (Artificer)

Tasha's Cauldron of Everything

Absorb Elements

1st-level abjuration

CASTING TIME	1 reaction, which you take when you take acid, cold, fire, lightning, or thunder damage
RANGE	Self
DURATION	1 round
COMPONENTS	S

The spell captures some of the incoming energy, lessening its effect on you and storing it for your next melee attack. You have resistance to the triggering damage type until the start of your next turn. Also, the first time you hit with a melee attack on your next turn, the target takes an extra 1d6 damage of the triggering type, and the spell ends.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the extra damage increases by 1d6 for each slot level above 1st.

Prepared (Artificer)

Xanathar's Guide to Everything

Catapult

1st-level transmutation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	S

Choose one object weighing 1 to 5 pounds within range that isn't being worn or carried. The object flies in a straight line up to 90 feet in a direction you choose before falling to the ground, stopping early if it impacts against a solid surface. If the object would strike a creature, that creature must make a Dexterity saving throw. On a failed save, the object strikes the target and stops moving. When the object strikes something, the object and what it strikes each take 3d8 bludgeoning damage.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the maximum weight of objects that you can target with this spell increases by 5 pounds, and the damage increases by 1d8, for each slot level above 1st.

Prepared (Artificer)

Xanathar's Guide to Everything

Faerie Fire

1st-level evocation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V

Each object in a 20-foot cube within range is outlined in blue, green, or violet light (your choice). Any creature in the area when the spell is cast is also outlined in light if it fails a Dexterity saving throw. For the duration, objects and affected creatures shed dim light in a 10-foot radius.

Any attack roll against an affected creature or object has advantage if the attacker can see it, and the affected creature or object can't benefit from being invisible.

Prepared (Artificer)

Player's Handbook

Shield

1st-level abjuration

CASTING TIME	1 reaction
RANGE	Self
DURATION	1 round
COMPONENTS	V, S

Reaction trigger: You are hit by an attack or targeted by the magic missile spell. An invisible barrier of magical force appears and protects you. Until the start of your next turn, you have a +5 bonus to AC, including against the triggering attack, and you take no damage from magic missile.

Artillerist Spells (Artificer)

Player's Handbook

Snare

1st-level abjuration

CASTING TIME	1 minute
RANGE	Touch
DURATION	8 hours
COMPONENTS	S, M (25 feet of rope, which the spell consumes)

As you cast this spell, you use the rope to create a circle with a 5-foot radius on the ground or the floor. When you finish casting, the rope disappears and the circle becomes a magic trap.

This trap is nearly invisible, requiring a successful Intelligence (Investigation) check against your spell save DC to be discerned.

The trap triggers when a Small, Medium, or Large creature moves onto the ground or the floor in the spell's radius. That creature must succeed on a Dexterity saving throw or be magically hoisted into the air, leaving it hanging upside down 3 feet above the ground or the floor. The creature is restrained there until the spell ends.

A restrained creature can make a Dexterity saving throw at the end of each of its turns, ending the effect on itself on a success. Alternatively, the creature or someone else who can reach it can use an action to make an Intelligence (Arcana) check against your spell save DC. On a success, the restrained effect ends.

After the trap is triggered, the spell ends when no creature is restrained by it.

Prepared (Artificer)

Xanathar's Guide to Everything

Tasha's Caustic Brew

1st-level evocation

CASTING TIME	1 action
RANGE	Self (30-foot line)
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a bit of rotten food)

A stream of acid emanates from you in a line 30 feet long and 5 feet wide in a direction you choose. Each creature in the line must succeed on a Dexterity saving throw or be covered in acid for the spell's duration or until a creature uses its action to scrape or wash the acid off itself or another creature. A creature covered in the acid takes 2d4 acid damage at start of each of its turns.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 2d4 for each spell slot above 1st.

Prepared (Artificer)

Tasha's Cauldron of Everything

Thunderwave

1st-level evocation

CASTING TIME	1 action
RANGE	Self (15-foot cube)
DURATION	Instantaneous
COMPONENTS	V, S

A wave of thunderous force sweeps out from you. Each creature in a 15-foot cube originating from you must make a Constitution saving throw. On a failed save, a creature takes 2d8 thunder damage and is pushed 10 feet away from you. On a successful save, the creature takes half as much damage and isn't pushed. In addition, unsecured objects that are completely within the area of effect are automatically pushed 10 feet away from you by the spell's effect, and the spell emits a thunderous boom audible out to 300 feet.

At Higher Levels. When you cast this spell using a spell slot of 2nd level or higher, the damage increases by 1d8 for each slot level above 1st.

Artillerist Spells (Artificer)

Player's Handbook

Heat Metal

2nd-level transmutation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 minute
COMPONENTS	V, S, M (a piece of iron and a flame)

Choose a manufactured metal object, such as a metal weapon or a suit of heavy or medium metal armor, that you can see within range. You cause the object to glow red-hot. Any creature in physical contact with the object takes 2d8 fire damage when you cast the spell. Until the spell ends, you can use a bonus action on each of your subsequent turns to cause this damage again. If a creature is holding or wearing the object and takes the damage from it, the creature must succeed on a Constitution saving throw or drop the object if it can. If it doesn't drop the object, it has disadvantage on attack rolls and ability checks until the start of your next turn.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d8 for each slot above 2nd.

Prepared (Artificer)

Player's Handbook

Scorching Ray

2nd-level evocation

CASTING TIME	1 action
RANGE	120 feet
DURATION	Instantaneous
COMPONENTS	V, S

You create three rays of fire and hurl them at targets within range. You can hurl them at one target or several. Make a ranged spell attack for each ray. On a hit, the target takes 2d6 fire damage.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, you create one additional ray for each slot level above 2nd.

Artillerist Spells (Artificer)

Player's Handbook

Shatter

2nd-level evocation

CASTING TIME	1 action
RANGE	60 feet
DURATION	Instantaneous
COMPONENTS	V, S, M (a chip of mica)

A sudden loud ringing noise, painfully intense, erupts from a point of your choice within range. Each creature in a 10-foot-radius sphere centered on that point must make a Constitution saving throw. A creature takes 3d8 thunder damage on a failed save, or half as much damage on a successful one. A creature made of inorganic material such as stone, crystal, or metal has disadvantage on this saving throw. A nonmagical object that isn't being worn or carried also takes the damage if it's in the spell's area.

At Higher Levels. When you cast this spell using a spell slot of 3rd level or higher, the damage increases by 1d8 for each slot level above 2nd.

Artillerist Spells (Artificer)

Player's Handbook

Web

2nd-level conjuration

CASTING TIME	1 action
RANGE	60 feet
DURATION	Concentration, up to 1 hour
COMPONENTS	V, S, M (a bit of spiderweb)

You conjure a mass of thick, sticky webbing at a point of your choice within range. The webs fill a 20-foot cube from that point for the duration. The webs are difficult terrain and lightly obscure their area.

If the webs aren't anchored between two solid masses (such as walls or trees) or layered across a floor, wall, or ceiling, the conjured web collapses on itself, and the spell ends at the start of your next turn. Webs layered over a flat surface have a depth of 5 feet.

Each creature that starts its turn in the webs or that enters them during its turn must make a Dexterity saving throw. On a failed save, the creature is restrained as long as it remains in the webs or until it breaks free.

A creature restrained by the webs can use its actions to make a Strength check against your spell save DC. If it succeeds, it is no longer restrained.

The webs are flammable. Any 5-foot cube of webs exposed to fire burns away in 1 round, dealing 2d4 fire damage to any creature that starts its turn in the fire.

Prepared (Artificer)
